Dear Mr. Roberts:

I would like to welcome you to Alberta, and express my support for the Push for Change campaign. Our government values the prevention of youth homelessness, and are inspired by the journey you have undertaken to support this important cause.

Alberta supports the need to prevent youth homelessness. As a core component of *Supporting Healthy and Successful Transitions to Adulthood: A Plan to Prevent and Reduce Youth Homelessness*, youth homelessness prevention is a best practice that our community leaders and policy-makers support.

We believe that teens and young adults deserve a safe place to call home. We are pleased to see community leaders like you raise awareness about preventing youth homelessness nation-wide.

I wish you the best as you continue your cross-country tour.

Sincerely,

Irfan Sabir  
Minister
